- I. **MAJOR CONCEPTS/CONTENT:** The purpose of this program is to prepare students for employment as restricted barbers (SOC 39-5011.00) or barbers (SOC 39-5011.00). Instruction is designed to qualify students for employment upon successfully passing the Florida Restricted Barber or Barber License Examination.

The content includes, but is not limited to, communication skills, leadership skills, human relations skills and employability skills, safe and efficient work practices; Florida barber law and rules, knowledge of barbering and its related chemistry, bacteriology, anatomy and physiology; development of skill in performing the manipulative technique required in the practice of barbering.

- II. **PROGRAM STRUCTURE:** This program is a planned sequence of instruction consisting of one program and two occupational completion points. When the recommended sequence is followed, the structure allows students to complete specified portions of the program for employment or to remain for advanced training.

Listed below are the courses that comprise this program when offered at the secondary level:

- 8757110 - Barbering 1
- 8757120 - Barbering 2
- 8757130 - Barbering 3
- 8757140 - Barbering 4
- 8757150 - Barbering 5
- 8757160 - Barbering 6
- 8757170 - Barbering 7
- 8757180 - Barbering 8

This program focuses on broad, transferable skills and stresses understanding and demonstration of the following elements of the barbering industry: health and safety, hands-on applications, technical and production skills, employability skills, cosmetic chemistry, and environmental issues related to the barbering industry.

III. LABORATORY ACTIVITIES: Instruction and learning activities are provided in a laboratory setting using hands-on experience with tools and chemicals appropriate to the program content and in accordance with safety and sanitation practices in the trade.

IV. SPECIAL NOTES: SkillsUSA, Inc. is the appropriate Career Student Organization (CSO) for providing leadership training and for reinforcing specific career and technical skills. CSOs, when provided, shall be an integral part of the career and technical instructional program, and the activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065, FAC.

If this program is offered for 450 hours or more, in accordance with Rule 6A-10.040, FAC, the minimum basic-skills grade levels required for postsecondary adult vocational students to exit this program are: Mathematics 9.0, Language 9.0, and Reading 9.0. These grade-level numbers correspond to grade-equivalent scores obtained on one of the state-designated basic-skills examinations. If a student does not meet the basic-skills level required for completion of the program, remediation should be provided concurrently through Vocational Preparatory Instruction (VPI). Please refer to the Rule for exemptions.

To be transferable statewide between institutions, this program/course must have been reviewed, and a "transfer value" assigned the curriculum content by the appropriate Statewide Course Numbering System discipline committee. This does not preclude institutions from developing specific program or course articulation agreements with each other.

When this program is offered at the postsecondary level, it may be offered in courses. Vocational credit shall be awarded to the student on a transcript in accordance with Section 1001.44, F.S.

When a secondary student with a disability is enrolled in a vocational class with modifications to the curriculum framework, the particular outcomes and student performance standards that the student must master to earn credit must be specified on an individual basis. The job or jobs for which the student is being trained should be reflected in the student's desired postschool outcome statement on the Transition Individual Educational Plan (Transition IEP).

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Adult students with disabilities must self-identify and request such services. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of

the accommodations requested and provided should be maintained in a confidential file.

SCANS Competencies: Instructional strategies for this program must include methods that require students to identify, organize, and use resources appropriately; to work with each other cooperatively and productively; to acquire and use information; to understand social, organizational, and technological systems; and to work with a variety of tools and equipment. Instructional strategies must also incorporate the methods to improve students' personal qualities and high-order thinking skills.

- V. **INTENDED OUTCOMES**: After successfully completing the program, the student will be able to:

OCCUPATIONAL COMPLETION POINT - DATA CODE A

RESTRICTED BARBER - SOC 39-5011.00
